

### What Is the Neurogenx Treatment?

It is a breakthrough electromedical treatment proven to effectively alleviate the pain, tingling, burning and numbness resulting from neuropathy and chronic nerve conditions. It can successfully help resolve neuropathy symptoms and nerve pain of varying intensities in different areas of the body. Neurogenx patients have regained improved sensation, range of motion, balance and restful sleep as well as eliminated pain and numbness.

The treatment is performed with a technologically advanced medical device called the Neurogenx 4000Pro: It is FDA-Cleared and patented as the only device of its kind. The Neurogenx Treatment is unlike any other currently available. It is non-narcotic, non-surgical and non-invasive. It uses a sophisticated electronic signal with a wide frequency band to successfully treat neuropathy symptoms at the cellular level, helping to restore function and feeling.

## NEUROPATHY

No Longer Has to Compromise Your Quality of Life.

The sooner you can start treatment, the greater the chance that nerve damage can be slowed or reversed . . . and the better your prognosis will be.

However, even patients who have suffered from neuropathy for years have had their symptoms resolved or significantly improved with the Neurogenx treatment.

# Tingling Pain Burning Numbness

## Causes of Neuropathy

Peripheral Neuropathy can be caused by or associated with many medical conditions including:

Carpal Tunnel	Fibromyalgia
Charcot Marie Tooth	Inflammatory Conditions
Chemotherapy	Lyme Disease
Complex Regional Pain	Migraines
Diabetes	Multiple Sclerosis
Neuritis	Radiculopathy
Neuromas	Restless Leg Syndrome
Phantom Leg Syndrome	Tarsal Tunnel Syndrome
Plantar Fasciitis	Vascular Conditions
Post-Op Pain	Viral Infection

As these conditions progress, they can result in pain, numbness, burning and/or tingling in the arms, hands, feet or legs. These are all symptoms of peripheral neuropathy.

\*87% reduction in symptoms is based on published medical studies. Offices following these protocols have seen similar results. Results may vary depending on age, condition, treatment compliance, genetics, diagnosis and other factors. Not all patients are candidates for treatment or are accepted for care.

## Specialized Treatment

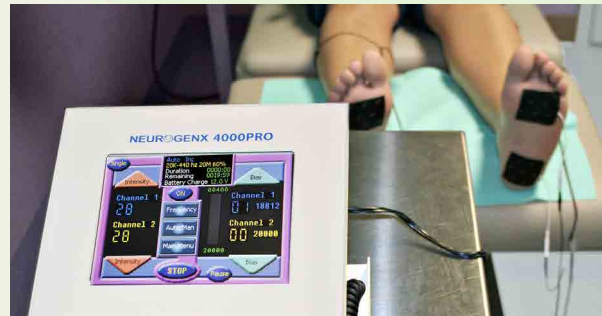

We are **accredited specialists in the cutting-edge NEUROGENX electromedical treatment.** Our expertise is dedicated to helping you regain improved feeling, range-of-motion and balance so you can get back to doing the things you enjoy.

Until now, nerve conditions have been very difficult to treat effectively. The **NEUROGENX** treatment technology changes that. This is NOT pain management - it is a proven, restorative treatment that is **effective for more than 4 out of 5 patients!**

The **NEUROGENX** electromedical protocol provides a clinically proven, successful treatment for neuropathy and chronic nerve conditions that affect both the upper and lower extremities.

## Start Today & Get Your Life Back!

The Neurogenx treatment has improved the quality of life for thousands of patients around the country. Call to schedule your evaluation and see if it can do the same for you.

"Before I came to Neurogenx, my feet were swollen badly and I was in lots of pain. I had been suffering with neuropathy since the 1990s. It had gotten so bad that I couldn't walk. Now the pain and swelling is all gone." ( H. Lann)

"I've had neuropathy for 25 years, and after the first treatment I was able to move my feet and roll my toes in ways that I couldn't since I was 40 years old. I'm grateful for this!" ( W. Owen)

In more than **4 out of 5 patients**, treatment with **NEUROGENX** resolved neuropathy symptoms & restored function!

## How Long Does It Take?

- The initial evaluation takes less than an hour.
- Treatment sessions normally take about 45 minutes to one hour.
- Symptoms typically resolve quickly. Based on your condition and its severity, you can expect results within 8-12 weeks, over the course of several treatments.

## What to Expect

We begin with a comprehensive exam and medical history so we fully understand the details of your condition. Our specially-trained, caring medical professionals will gently examine your hands, arms, wrists, feet, ankles and legs for pain, numbness, burning and tingling as well as evaluate your strength, range-of-motion and balance.

Your evaluation finishes with a complete explanation of the exclusive medical protocol and the details of your **personal treatment plan.**
